

Heavy Plates

Heavy plates cater to niche segments requiring optimised thickness to strength combination; and they are available at Essar Hypermart. They are tougher, wider and stronger, offering better yield, strength and durability.

Applications
General Engineering, Construction

Specifications & Dimensions
Thickness : 5 – 150 mm
Width : 1,200 – 5,000 mm
Length : up to 25,000 mm
Grades : API, ASTM, EN, JIS and IS 2002:2006

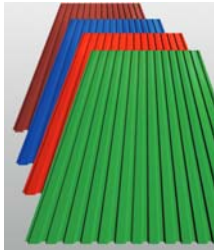

TMT Bars

The TMT bars available at Essar Hypermart offer superior dimensional properties like higher yield and tensile strength, bendability, weldability, corrosion and earthquake resistance.

Applications
RCC Structures

Specifications & Dimensions
Length : 12,000 mm
Diameter : 8 mm, 10 mm, 12 mm, 16 mm, 20 mm, 25 mm, 28 mm, 32 mm
Grade : Fe 500

Colour Coated Sheets

Colour coated sheets available at Essar Hypermart offer the strength of steel, the corrosion resistance of galvanised coating and the aesthetic appeal of paint.

Applications
Construction & Infrastructure, White Goods, Sandwich Panels

Specifications & Dimensions
Thickness : 0.25 – 1.2 mm
Width : 300 – 1,310 mm
Coating : 15 – 40 microns
Thickness : (total coating thickness including top, back and primer)

Essar Hypermart Bandhan

India's first and unique loyalty programme for steel buyers, it recognises and rewards customers for their loyalty to and patronage of Essar Hypermart. As an Essar Hypermart Bandhan member, customers earn Bandhan reward points every time they purchase steel. This enables them to enjoy exclusive benefits and privileges.

Essar Hypermart Bandhan is completely online – from checking points to selecting gifts and redemption. Members have unlimited access to the Essar Hypermart website where they can even maintain their very own web profile, view their Bandhan points, browse through the gift catalogue and redeem their Bandhan points for exciting rewards.

ESSAR HYPERMART

Essar Hypermart
The one stop shop for all steel products

Essar Steel

Essar Steel is a global producer of steel with a footprint covering India, Canada, USA and Indonesia. With a present capacity of 14 million tonnes per annum (MTPA), it is fully integrated from mining to retail. Essar Steel has manufacturing facilities in Canada, USA, Indonesia and India.

It has the country's largest steel processing capacity of 3 MTPA at its seven processing and distribution facilities, located at key automotive and industrial hubs. And it runs the world's largest steel retail chain – Essar Hypermart – with over 600 touchpoints across India, and expanding. Even in global markets like the GCC countries, Essar Steel invests in world-class research & development and has technology collaborations with global steel majors and research institutes. This helps develop enhanced value-added products and grades that find wide acceptance in key steel-consuming sectors.

Essar Steel is a part of the Essar Group – a multinational conglomerate and a leading player in the sectors of Steel, Oil & Gas, Power, Communications, Shipping Ports & Logistics, Construction, and Mining & Minerals. With operations in more than 20 countries across five continents, the Group employs 65,000 people, and has revenues of USD 15 billion.

Essar Hypermart

Introducing, the one-stop shop for all steel products. Essar Hypermart – the world's largest steel retail chain – has revolutionised the steel industry, by making steel available directly to SMEs and end-users across the world. From a single retail outlet in 2006, the Essar Hypermart network has increased its footprint to well over 600 retail outlets, with more outlets coming up every day. It is backed by Essar Steel, a 14 MTPA steel producer and one of India's largest.

With a comprehensive product range that caters to all industry segments and an unparalleled reach that extends to the remote corners, Essar Hypermart is delivering value-added, customised solutions to customers. With a promise of Sahi Price, Sahi Quality and Sahi Delivery, Essar Hypermart is providing customers with a competitive cost-edge in highly-demanding markets.

The Sahi Advantage

Price

Essar Hypermart ensures customers complete visibility, when it comes to purchasing products. Thanks to its transparent pricing policy that helps the customer's decision-making process. The prices of all products are available online, on the Essar Hypermart website – www.essarhypermart.in. The website takes customers through the world of Essar Hypermart enabling them to view products, check prices, book orders and even make payments; all at the click of a button. The products themselves are available in a wide range of widths, sizes and tonnage.

Quality

The products available at Essar Hypermart are highly quality-driven, meeting international standards. They come with a test certificate and are stamped with the guarantee of Essar Steel. Industry-trusted, the products available at Essar Hypermart set benchmarks and standards for excellence worldwide; they provide customers the advantage they desire.

Delivery

From Essar Hypermart directly to the customer's doorstep – that's the benefit that Essar Hypermart's unique door delivery model offers customers. With a visibility window for product availability, it simplifies the steel-buying process for customers. It eliminates the hassles of hardcore trucking operations at no additional cost, which in turn enables customers to minimise costs and maximise advantage. For performing the task efficiently and adding value to the customer's experience, a fleet of specially-designed and branded Essar Hypermart vehicles has been commissioned.

Product Range

Hot Rolled Products
Hot rolled products available at Essar Hypermart are of the finest quality; they provide unmatched benefits to end-users. They are designed to maximise productivity and process efficiency, and are available in the form of plates, sheets and coils.

Applications
Automobiles, Fabrication, General Engineering, Infrastructure, etc

Specifications & Dimensions
Thickness : 1.6 – 20 mm
Width : 1,250 – 2,000 mm
Length : 2,500 – 12,000 mm

Cold Rolled Products
Cold rolled products available at Essar Hypermart are a combination of high strength, ductility, consistent mechanical properties, close dimensional tolerance and superior surface finish.

Applications
Automotive Body & Components, Drums & Barrels, Pipes & Tubes, White Goods, etc

Specifications & Dimensions
Thickness : 0.3 – 2.5 mm
Width : 900 – 1,500 mm
Length : 2,500 mm

Galvanised Products
Galvanised products at Essar Hypermart come with a guaranteed zinc coating of 120 gsm, offering best resistance to corrosion. They are available in 3 different surface finishes to suit a variety of applications.

Applications
Air-conditioning & Heating Ducts, Automotive Body & Components, Water Heaters & Stoves, Coolers & Refrigerators, etc

Specifications & Dimensions
Thickness : 0.25 – 3 mm
Width : 900 – 1,220 mm
Length : 2,500 mm

Galvanised Corrugated Sheets
With a guaranteed zinc coating of 120 gsm, the galvanised corrugated sheets available at Essar Hypermart offer longer life and better durability. The extra-wide 1,200 mm sheet is another breakthrough solution, resulting in huge cost-savings for customers.

Applications
Barricading, Cladding, Facades & Roofing

Specifications & Dimensions
Thickness : 0.16 – 0.8 mm
Width : 720 – 2,200 mm
Length : 2,400 – 4,800 mm

Essar Steel Processing and Distribution

Essar Steel processing and distribution is India's largest steel solutions' chain, with a capacity of 3 MTPA and a presence in 7 locations across India, in key industrial hubs – Hazira, Pune, Chennai, Indore, Bhub, the NCR region and Kolkata. It offers tailor-made steel supply solutions with an emphasis on reducing inventory levels and processing costs with JIT (Just-In-Time) supplies. Essar Steel processing and distribution facilities have the ability to process all kinds of carbon, coated and stainless steel with versatile production lines – cut to length, slitting, shot blasting, burnt to shape, trapezoidal and factory-welded beams.
